

# Invitation

## Mediphos Satellite symposium

October 11 2017, 8:30 - 10:00 hours (Ground floor)

### “Trends in molecular POCT for improved management of infectious diseases”

**Chairman:** Dr. Jeroen van de Bovenkamp (PAMM, Veldhoven, The Netherlands)

8:30 **Opening by the Chairman**

8:35 – 9:05 ***The future of microbiology - the “brickless” laboratory***  
Dr. Jan Gorm Lisby, (Hvidovre Hospital, Denmark)

9:05 – 9:20 ***Evaluation of a new platform for POCT of Cdiff***  
Stanislava Steiner M.Sc., (Bioanalytica AG, Luzern Switzerland)

9:20 – 9:35 ***To test or not to test - and how?***  
*Relevance of testing Cdiff on non-Cdiff samples*  
Prof. Dr. Martin Altwegg, (Bioanalytica AG, FAMH Mikrobiologie, Luzern Switzerland)

9:35 - 9:55 ***Detection of Group B Streptococci (GBS) colonization before delivery (comparison between a new point of care molecular detection system, GenePOC, and culture)***  
Prof. Dr. med. Lutz von Müller, (Christophorus-kliniken, Coesfeld, Germany)

9:55 - 10:00 **Questions and closing by the Chairman**

Please register before 1<sup>st</sup> October by e-mail: [emmd@mediphos.com](mailto:emmd@mediphos.com)

Admittance to this symposium is offered complimentary in co-operation with GenePOC Inc. Coffee, tea, cakes and snacks will be provided.
